OTHER NEWS

Rotary World President 2016-17 John F Germ wrote:

In 1979, James Bomar Jr., the president of Rotary at the time, travelled to the Philippines as part of Rotary’s earliest work to immunize children against polio. After he had put drops of vaccine into one baby’s mouth, he felt a child’s hand tugging on his trouser leg to get his attention. Bomar looked down and saw the baby’s brother looking up at him, saying earnestly, “Thank you, thank you, Rotary.”

Before Rotary took on the task of polio eradication, 350,000 people – nearly all of them children – were paralysed by polio every year. That child in the Philippines knew exactly what polio was and understood exactly what Rotary had just done for his baby brother.

Today, 31 years after the launch of PolioPlus, the children of the Philippines – and of nearly every other country in the world – are growing up without that knowledge, and that fear, of polio. Instead of 1,000 new cases of polio every day, we are averaging less than one per week. But as the fear of polio wanes, so does awareness of the disease. Now more than ever, it is vitally important to keep that awareness high and to push polio eradication to the top of the public agenda and our governments’ priorities.....

It is an incredibly exciting time to be a Rotarian. We are gathering momentum for the final race to the finish: to the end of PolioPlus and the beginning of a polio-free world. It is truly a once-in-a-lifetime chance to End Polio Now, through Rotary Serving Humanity”

Four months of this Rotary year have gone already and this month we will celebrate our own charity – The Rotary Foundation, which transforms your gifts into projects that change lives both close to home and around the world. As the charitable arm of Rotary, we tap into a global network of Rotarians who invest their time, money, and expertise into [our priorities](#), such as [eradicating polio](#) and [promoting peace](#). Foundation [grants](#) empower Rotarians to approach challenges such as poverty, illiteracy, and malnutrition with sustainable solutions that leave a lasting impact.

I hope to see many Rotarians, partners and friends at our Gala Celebration of The Rotary Foundation on 26th November at the Cardinia Cultural Centre in Pakenham.

I know it will be a great night, so get a table together and book in now! ***End Polio now!!!***

Jean Wilde, from the Frankston North Community Centre Arts and Crafts program has given 25 Trauma Teddies to the Peninsula Health TT project.

Rotary Club Questions
16th November 2016

Question: The club has always had an affiliation with Ballam Park with the construction of a pavilion and more recently the removal of graffiti and painting of bollards. In 1996 there was a different activity that involved the club at Ballam Park. What was that activity?

Question: In 2005 an unfortunate event occurred in the club. What was this unfortunate event?
