THE FOUR-WAY TEST

Of all the things we think, say or do . . .

1. Is it the TRUTH?
2. Is it FAIR to all concerned?
3. Will it build GOODWILL & BETTER FRIENDSHIPS?
4. Will it be BENEFICIAL to all concerned?

FROM PRESIDENT ERIC

I would like to thank the members partners and guests that attended and made our Changeover night at Sandhurst Club such a good night, I enjoyed it and I hope you all did as well.

Again congratulations to Mark on last year but now is the time we need to get going, last week we started by going through the Vision plan and then the committee allocations. Copies of these were distributed to all members via email.

Update on Ron Cook, I saw him during the week he is going well and is now in Rehab at St John of God in Cranbourne Rd.

Our Major priority is to increase and maintain our membership, next month is Membership Month and Don is planning a bif month for this.

Enjoy your week in Rotary

President Eric

JULY IS CLUB MONTH

AFRICA ON THE BRINK OF POLIO ERADICATION

Nigeria and the whole continent of Africa is on the cusp of being polio free, Dr. Hamid Jafari told audience members at the Rotary Convention on 8 June in São Paulo, Brazil. Between 2013 and 2014, the reported cases of polio dropped from 53 to just six in Nigeria. Even more encouraging, said Jafari, is that the last case of polio in Nigeria was reported in July of last year and the last case in all of Africa was reported in Somalia in August.

“With a year of no polio cases in Nigeria tantalizingly close, and no cases in Somalia since August, the tireless work of so many people across the continent is paying off,” said Jafari, director of the Global Polio Eradication Initiative for the World Health Organization. “But it is incredibly important that Nigeria remains vigilant. As long as polio exists anywhere, it will continue to be a threat everywhere.”

Transmission of the wild poliovirus has also never been stopped in Afghanistan and Pakistan. In 2014, 85 percent of polio cases worldwide were in Pakistan, the country’s highest case count in over a decade. But progress has been made over the last few months to stem the spread of the virus. The focus for the government and all of the polio partners has shifted to missed children. Vaccinators have gained access to areas that have been out of reach for years, said Jafari.

Since January, cases in Pakistan are lower than this time last year thanks to advocacy work from Rotary members, said Jafari. “This is a reminder that we cannot let politics and conflict stand in our way, because at the end of the chain stands a mother or father that just wants to protect their child. But the coming months are the real test. We are entering the high season for polio transmission.”

Jafari encouraged attendees to stay committed. “I need you to continue to advocate and engage with your political leaders with that strong, influential Rotary voice of yours, so that all our stakeholders continue to commit to funding the final stages,” he said. “I need you to keep on educating and engaging your communities and the global community on this great endeavor.”
